CARE's – The ethical Chef Days postponed to 4–7 June 2020

Until the last moment, the conceivers and the organisers of **CARE's – The ethical Chef Days** were confident and remained hopeful thinking that “Yes, CARE's can be done”. But even if optimism was predominant before, now a sense of responsibility has to prevail.

The worldwide Coronavirus situation and the related national measures that had to be adopted in Italy have forced Mo-Food, the company through which chef Norbert Niederkofler and Paolo Ferretti created CARE's, **to postpone the event** from 26–29 March **to 4–7 June 2020**.

“True to its name, CARE's has always ‘cared’ not just about the environment, the local area and younger generations, but also and above all about the people.” explained Niederkofler and Ferretti *“CARE's was conceived to bring people together, their ideas and their opinions and we must be able to do so when the conditions are right”*.

CARE's will come back with all its power **the first weekend of June**: as usual, in the amazing location of **Bruneck-Kronplatz**, **with the same preannounced format, the same program**, as well as **the same preannounced chefs and guests** invited to take part.

The entire CARE's team is ready to get back to work and “re-act”, as the leitmotif that accompanies the 2020 edition is teaching: *Re-Actions speak louder than words*.
